

Department of Human Resources

Invites applicants for the position of:

HVAC Mechanic

Requisition: HVACM01267

The Heating, Ventilation, and Air Conditioning (HVAC) Mechanic is responsible for troubleshooting, repairing, installing, and maintaining HVAC equipment, refrigeration equipment, and other components. Other responsibilities include monitoring the Building Automation System (BAS) for performance efficiency and calibration.

Essential Job Responsibilities:

- Troubleshoots, repairs, and installs HVAC electrical, electronic, pneumatic, and hydraulic components.
- Performs preventive maintenance on HVAC equipment in compliance with service, warranty, and maintenance standards.
- Completes written reports to document maintenance and repair of HVAC systems, and energy management systems.
- Using a building automation system (BAS) to maintain and operate the HVAC systems.
- Interacts with customers regarding comfort complaints.
- Follows all safety regulations.
- Maintains regular and on-time attendance.
- Supports MNAA's commitment to its culture and values, including Respect, Integrity, Service and Excellence (RISE).
- Performs other duties as assigned.

Qualifications:

Required:

- High School Diploma.
- 2 to 4 years of mechanics, installation, or related experience.

Preferred:

- Associate's Degree.
- 4-7 years of mechanics, installation, or related experience.

Accepting applications: until filled
