

Department of Human Resources

Invites applicants for the position of:

Treatment Plant Operator

Requisition: TREAT01268

The Treatment Plant Operator is responsible for operating, managing, and controlling the daily activities associated with the Stormwater/Wastewater Treatment Facility (SWTF). Other responsibilities include ensuring compliance with MNAA's National Pollutant Discharge Elimination System (NPDES) permit and Storm Water Pollution Prevention Plan (SWPPP).

Essential Job Responsibilities:

- Ensures compliance with MNAA's NPDES permit and SWPPP.
- Analyzes real-time data collected from various measuring devices, including flow meters, dissolved oxygen meters, and conductivity meters to make operational decisions in the water treatment facility to protect the environmental stewardship of the airport.
- Produces written and oral reports for internal and external stakeholders.
- Monitors industrial activity and weather forecasts to anticipate flows and concentrations to be received by stormwater piping and collection systems.
- Operates supervisory control and data acquisition (SCADA) system for water treatment facility operation and inspection.
- Performs regular (daily, weekly, monthly, and quarterly) monitoring (on-site and remote) of the water treatment facility and stormwater outfalls.
- Applies Occupational Safety and Health Administration (OSHA) safety principles to maintain safe operation of water treatment facility.

Qualifications:

Required:

- Associate's Degree.
- 4 to 7 years in biological treatment plant operation or related experience.

Preferred:

- Bachelor's Degree in chemistry, biology, or related field.
- 7-10 years in biological treatment plant operation or related experience, in lieu of a degree.

Accepting applications: until filled
